PITTSGROVE TOWNSHIP SCHOOL DISTRICT

New Jersey Educational Facilities Construction and Financing Act

The New Jersey Educational Facilities Construction and Financing Act (P.L.2000,c72), enacted on July 18, 2000, launched the New Jersey School Construction Initiative (NJSCI) – a **multi-faceted, comprehensive program for the design, renovation, repair, and new construction of primary and secondary schools throughout New Jersey**. The initiative is the largest school construction program undertaken by the State of New Jersey and represents one of the largest school construction programs ever undertaken in the nation.

- **2000 - \$8.6 billion** was bonded State debt issued by the NJ Economic Development Authority now called the **New Jersey School Development Authority**.
- **2008 - \$3.9 billion** was allocated for additional funding for the NJSDA.
- The School Construction Initiative provides for **100% State funding** of approved projects in the 31 **"special needs" Abbott districts**.
- For approved projects in **all other districts** throughout New Jersey the State will fund at least **40% of the eligible costs or the district DAP – which means funding of 50.6477%** for your District.
- **The only way the State will help fund school projects today is via Debt Service Aid**. Districts must incur debt or borrow money in order to get money from the State. Projects funded through the annual school budget are not eligible for State Aid. ROD Grants Round 4 expired in September of 2013.
- **The State will not allow school districts to carry over significant money** to replace building systems from year to year and has capped the school budget increases so districts cannot easily replace building systems within their annual budgets.
- **New construction is penalized** by a low State mandated (Educational Facilities Construction and Financing Act) construction dollar value of **\$143 per square foot**. Actual current new construction cost varies significantly from region to region but is between \$500/SF to \$600/SF, but the State only pays a maximum of 40% of "eligible costs" based on \$143/SF new construction value.
- **Renovation costs are not penalized** and can reflect the current market values. The State pays 40% of "eligible costs" based on the architect's construction estimate for all renovations.
- In conclusion. **NJ Districts that complete projects through Bond Borrowing are able to capture significant cost advantage** because Debt Service Aid is only available through a Voter-approved Bond Referendum.
